NSF-61 Certified and Made in the USA

Barracuda® is the first colored restrained joint gasket licensed and warranty-approved for TYTON JOINT®. Its curved radius creates more touchpoints for a superior fit, delivering a 350 PSI rating and allowing deflection up to 5 degrees when properly installed. Available in EPDM, SBR, and Nitrile, Barracuda is NSF/NSF Standard 61 certified for contact with potable water, wastewater, and other related applications and compliant with ANSI/AWWA C111/A21.11 Rubber Gasket Joints for Ductile Iron Pressure Pipe and Fitting. Specification Rubber Products manufactures 100% of Barracuda gaskets in the USA. Available in sizes ranging from 4" - 16".

Specification Rubber has been a leader in water system quality, innovation, and technology since 1968. We are an ISO-certified manufacturer of NSF-61 certified gaskets and sealing solutions, manufacturing all of our products in the USA.
