Barracuda® Restrained Joint (RJ) Gaskets

The Barracuda® Gasket is leading the way as the first colored restrained joint gasket. The NSF-61 certified, UL compliant Barracuda® Gasket stands ready to meet your needs. Proudly manufactured in the USA.

PRODUCT FEATURES

- Specification Rubber's Barracuda® Gaskets restrain ductile iron pipe, valves, and fittings utilizing a TYTON® Joint.
- Barracuda® Gaskets are available in EPDM, SBR, Nitrile and FKM molded in SAFETY ORANGE. Neoprene gaskets are molded in black. SAFETY ORANGE compound allows visual confirmation that a restrained joint gasket is installed.
- Suitable for water, wastewater and other related applications.
- Barracuda® Gaskets are available in sizes ranging from 4" to 16" and can be deflected up to 5° when properly installed.
- Rated up to 350 PSI and fully warranted by Specification Rubber when properly installed.
- Manufactured in accordance with ANSI/AWWA C111/A21.11 Rubber Gasket Joints for Ductile Iron Pressure Pipe and Fittings
- Assembly Instructions are provided with each Barracuda® Gasket.
- In stock for immediate shipment

Since 1968, Specification Rubber has been a leader in quality, innovation, and technology. Specification Rubber is an ISO certified manufacturer of NSF-61 certified gaskets and sealing solutions produced in Alabaster, Alabama. Specification Rubber continues to innovate after more than 50 years in business with cutting-edge products like the Barracuda® Restrained Joint Gasket.

"We now stock the Barracuda gaskets in several of our branches. Installation crews and inspectors love the gaskets for the quick visual inspection and peace of mind! These are great, quality gaskets made by a trustworthy company, and manufactured in the USA."

- Troy A Dressler, Director of Operations, L/B Water Service, Inc.
